

# Artificial Intelligence Student Package

This package is designed for Artificial Intelligence students, focusing on the intersection of blockchain and AI. It covers how blockchain can enhance AI applications and provides practical knowledge on integrating these technologies with a huge discount for students.

## Package Includes:

**Blockchain Fundamentals:** 6 hours of training on the basics of blockchain technology.

**AI and Blockchain Integration:** 8 hours of sessions on how blockchain can be used to enhance AI applications.

**Data Privacy and Security:** 8 hours of training on using blockchain to secure AI data and ensure privacy.

**Project Development:** 6 hours of guided project work to develop AI applications using blockchain.

**Support:** 3 months of email support for integration queries.

**Price:** \$375 USD (Discounted from \$750 USD)

## Value Proposition:

1. Explore the synergy between AI and blockchain.
2. Learn how to secure and manage AI data using blockchain.
3. Develop innovative AI applications with blockchain integration.
